

AUTHORIZATION FOR DIAGNOSTIC SERVICES AND DISPOSITION OF REMAINS

Owner: _____ Animal ID: _____

I understand that I am financially responsible for all testing requested or added to the original submission that is necessary to reach a diagnosis. I understand that submitting my animal for necropsy does not guarantee a cause of death will be determined and that I will be responsible for the charges regardless of the outcome.

_____ (initial)

Or

My animal was submitted for necropsy as part of a disease surveillance program. I understand that as part of a disease surveillance program the CVMDL will conduct testing necessary to determine if my animal is infected with or carrying a particular disease. I also understand that I am financially responsible for any testing added to the original submission that is necessary to reach a diagnosis which is outside of the parameters covered by the surveillance testing program. The testing parameters of the disease surveillance program and the costs covered by that program have been explained to me.

_____ (initial)

_____ (initial) I have been given an estimate of \$ _____ to \$ _____. In the event that testing required will exceed this estimate, I will be notified by the CVMDL. **Charges not collected today will be sent in an invoice once your case is final.**

Disposition of Remains:

_____ (initial) I understand that the body of my animal, once admitted to the CVMDL for necropsy, will not be returned to me due to the dangers of potentially harmful organisms, chemicals, or other substances potentially dangerous to plants or animals, including humans. I understand that for an additional fee I may have my animal privately cremated by Inserv Corporation and the ashes returned to me by that company.

I would like to have my animal privately cremated by Inserv Corporation and the ashes returned to me. I understand that I must make arrangements with Inserv for my choice of an urn or a tin and that there will be a fee for these services billed directly to me from Inserv. I understand that these fees are not included in the price quote presented to me above.

I choose NOT to have a private cremation for my animal. I understand that there will be no return of ashes and that there is no additional cost for this service.

I am undecided. I understand I have until Wednesday _____ at 9am to decide. If I do not specify my cremation choice by that time, I understand my animal will be communally cremated by Inserv Corporation and that there will be no return of ashes.

_____ (initial) The CVMDL will be reporting all results to your veterinarian. Please contact your veterinarian for results and updates on report status. The CVMDL cannot maintain contact with multiple parties by phone; however, written reports can be provided to up to three parties.
