

## **Current Antibodies for IHC Testing**

**Note:** Not all antibodies have been assessed for cross-reactivity to different species. For specific cross-reactivity information, please contact Denise in Histology 860-486-3740.

Actin, Smooth muscle (1A4)	
Actin, Muscle Specific (HHF-35)	
Bovine Viral Diarrhea virus (BVD)	
Calicivirus	Melan A
Canine Distemper Virus	Mink Enterovirus (order Parvovirus)
CD3 (T cell)	Mycobacterium bovis
CD45RO (T-cell; clone UCHL-1)	Muscle Specific Actin (HHF-35)
CD68 (KP-1)	Myeloid/Histiocyte Antigen (MAC 387)
CD79a (B cell)	Myoglobin
Chromogranin	
Clostridium perfringens (special permission required)	Neurofilaments
Collagen IV	Parvovirus
Coronavirus	Porcine Circovirus 2
Cytokeratin, pan	Rabies
Desmin (monoclonal)	
D2-40	Smooth Muscle Actin (1A4)
Epithelial Membrane Antigen	S100
	Synaptophysin
Factor VIII (Von Willebrand's Factor)	Toxoplasma gondii
Feline Herpes	
Feline Infectious Peritonitis Virus	Vimentin
Feline Pan Leukopenia Virus (order Parvovirus)	Von Willebrand's Factor (Factor VIII)
GFAP (Glial Fibrillary Acidic Protein)	
Histiocyte/Myeloid Antigen (MAC 387)	
Leukocyte Common Antigen (Pan-Leukocyte- CD20)	
Listeria	
Lysozyme
